

CONTENTS

Biodesign | Vol.5 | No.3 | Sep 30, 2017

MINI REVIEW

- | | | |
|----|---|---------------|
| 89 | Correlation between retromer and neurological diseases including Alzheimer | Chae-Eun Jang |
|----|---|---------------|

RESOURCE

- | | | |
|----|--|---|
| 96 | Facility for high resolution cryo-electron microscopy of biological macromolecules at Korea Basic Science Institute | Hyeongseop Jeong, Seong-Gyu Lee, Hee-Seok Kweon and Jaekyung Hyun |
|----|--|---|

CRYSTALLIZATION

- | | | |
|-----|--|---|
| 103 | Crystallization and preliminary X-ray diffraction analysis of a redox-sensing repressor Rex from <i>Thermotoga maritima</i> | Young Yoon Jang, Young Woo Park, Hyun Kyu Joo and Jae Young Lee |
| 107 | Phase determination of a homogentisate dioxygenase from <i>Comamonas</i> sp. strain P19 | Suk-Youl Park, Byoung Yul Soh, Jong-Chan Chae and Jeong-Sun Kim |
| 110 | Crystallization and preliminary structural study of the <i>Thermobaculum terrenum</i> Csh2 in the type IB CRISPR system | Do-Heon Gu, Suk-Youl Park and Jeong-Sun Kim |
| 114 | Purification, crystallization, and X-ray crystallographic analysis of Vac8p complexed with Atg13p from <i>Saccharomyces cerevisiae</i> | Jumi Park, Kyonghwa Song, Sohyeon Oh, Taewon Son, Jun Lee, Ayoung Park, Hyun Ji Kim, Youngsoo Jun and Changwook Lee |
| 118 | Purification, crystallization and X-ray crystallographic analysis of the type VI secretion system accessory protein TagF from <i>Pseudomonas aeruginosa</i> | Chang-Kyu Ok and Jeong Ho Chang |
| 122 | Purification, crystallization and X-ray diffraction of heparan sulfate bounded human RAGE | Jun bae Park, Youngki Yoo, Belinda Xiang Yu Ong, Juyeon Kim and Hyun-Soo Cho |
